State of Maryland 2025 Hate Bias Report

1 October 2026

MP-202609-00191-MCAC

I. Scope

Public Safety Article Title 2-307 tasks all law enforcement agencies within the State of Maryland and the Office of the State Fire Marshal to provide the Maryland Department of State Police (MDSP) with information relating to incidents seemingly directed against an individual or group because of race, color, religious beliefs, sexual orientation, gender, disability, national origin, or homelessness. In compliance with that requirement, the MDSP, in partnership with the Maryland Coordination and Analysis Center (MCAC), has produced this report. It contains an overview of trends in hate bias-related incidents within the State of Maryland including a statistical representation of incidents and their associated victims, offenders, injuries, weapons, and property damage. This report also includes a historical analysis of total incident data compared with total verified data from the previous 10 years. The information is limited to hate bias incidents reported to Maryland law enforcement.

II. Methodology

The State of Maryland meets National Uniform Crime Reporting (UCR) requirements via the Maryland Statewide Uniform Crime Reporting Program. This program provides procedures and the collection mechanism for hate bias incidents based on the following: Race/Ethnicity/Ancestry (R/E/A), Religion, Sexual Orientation, Disability, Gender, Gender Identity, and Homeless Status. Law enforcement agencies submit incident data to MDSP Central Records Division for data compilation using the Maryland State UCR Portal which has replaced the Maryland Supplementary Hate Bias Incident Report Form. This data is analyzed and findings are released to the public in this publication annually.

While the Federal Bureau of Investigation (FBI) UCR Program compiles hate crime data regarding criminal offenses motivated by the offender's bias, Maryland Public Safety Article Title 2-307 requires the collection of data on hate crimes as well as non-criminal hate bias incidents. For this reason, the FBI's statistics on hate crimes may differ from Maryland's hate bias statistics.

Incident-based data includes events that are perceived by the victim(s) or the investigating law enforcement officer(s) as motivated by hate or bias.

Such incidents may or may not be considered criminal activity. Crime-based data pertains to hate bias-related crimes, which are recorded as hate or bias incidents but, more specifically, involve offenses that can result in arrests. Hate crime definitions often encompass not only violence against individuals or groups, but also crimes against property, such as arson or vandalism, particularly those directed against community centers or houses of worship. In order to provide a more comprehensive overview of hate bias-related activity in Maryland, crime-based and incident-based data have been combined in this report.

When an incident is reported, the following criteria, among others, can be used to determine if the incident is bias-related:

- A review of the totality of the circumstances.
- A review of the motives.
- A display or expression of any bias-related symbols, words, or acts.
- The victim's perception and/or statements of any offender(s) or witness(es).
- A prior history of similar incidents in the same geographic area or against the same victim(s).
- The demographics of the area of occurrence.

Identifying the offender's subjective motivation can make it difficult to distinguish a hate bias-related incident. The determination whether to charge a hate crime is at the discretion of law enforcement and prosecutors. The presence of any of the following criteria may be indicators that an incident is hate bias motivated and additional investigation is necessary:

- Similar incidents in or around the same location or neighborhood indicating a possible pattern.

- *Perceptions of the victim(s) and witness(es) about the incident* – This is one of the single most important factors to consider. However, victims may not readily recognize that the incident was motivated by bias.
- *Perpetrator’s comments, gestures, or written statements reflect bias* including graffiti, drawings, and symbols used.
- *Differences between perpetrator and victim, whether actual or perceived by the perpetrator* – Victims and perpetrators may appear to be from the same race, ethnicity, or religion, but it is the perpetrator’s perception of difference that motivates the behavior constituting an incident.
- Victim was engaged in activities promoting their community or group.
- Incident coincided with a holiday or date of particular significance to a group.
- Localized activities of organized hate group(s) or the absence of any other motive(s) such as economic gain.

Some incidents are not clearly identified as hate bias. However, investigative efforts may reveal the incident is hate bias motivated. Depending on the outcome of the follow-up investigation, hate bias incidents are classified as verified, inconclusive, or unfounded.

- *Verified Incident* – An incident committed against a person or property where the investigation leads a reasonable and prudent person to conclude that the offender’s actions were motivated, in whole or in part, by their bias against a person’s R/E/A, religion, sexual orientation, disability, gender, gender identity, or homeless status.
- *Inconclusive Incident* – An incident where the evidence is conflicting, incomplete, or otherwise insufficient to classify as verified.
- *Unfounded Incident* – An incident in which the evidence or investigation definitively indicates that it was not motivated by bias against a person’s R/E/A, religion, sexual orientation, disability, gender, gender identity, or homeless status, or that the incident did not occur.

Data Declaration

The data contained in this report comes from the Maryland State UCR Portal. Information includes date, time, incident type, bias motivation, clearance, victim

and offender demographics, location, weapons used, injuries, value of property damage, and a written summary of the incident, amongst other things.

R/E/A, Religion, and Sexual Orientation account for most of the bias motivation reporting from the previous 10 years.

In 2025, Montgomery County changed the threshold for reporting hate bias incidents from school-elementary/secondary locations to law enforcement.¹

The reports are collected by the MDSP’s Central Records Division as mandated by law and are then provided to the MCAC. If a hate bias incident occurs and is not reported to law enforcement, an incident report is not filled out and is not submitted. All information included in this report is analyzed based on the information entered into the Maryland State UCR Portal and submitted to the MDSP. This analysis is current as of 1 July 2026. Incident reports from 2025 received after 1 July 2026 will be reflected in the 2026 Hate Bias Report.

No specific addresses or locations are collected except the incident ZIP Code. No names or personal identifiable information are reported to maintain confidentiality. All percentages are rounded to the nearest tenth of a percent.

III. Executive Summary

There were a total of 884 hate bias incidents reported by Maryland law enforcement during 2025; of those, 303 were verified.

Key Findings

The following statistics account for all incident types, verified, inconclusive, and unfounded:

- The total number of hate bias incidents decreased by 4.3% in 2025 compared to the previous year.
- Compared with 2024, the number of reported hate bias motivations reported in 2025 remained identical: 972.
- 80 hate bias incidents were reported with multiple bias motivations.
- Comparing 2024 to 2025, R/E/A incidents (506 to 579) increased, while incidents of Religion (317 to 252) and Sexual Orientation (116 to 99) decreased.
- The top three bias motivations in 2025 were Anti-Black or African American (379), Anti-Jewish (210) and Anti-Hispanic or Latino (66).
- Incident reporting for Anti-Hispanic or Latino motivations increased by 69.2% from 2024 (39) to 2025 (66).
- Incidents with an assault incident code decreased to 142 from 156 in 2024.
- When victim demographics were known, victims between 31-50 years old were the highest category represented with 260.
- The K-12 school location type reported the highest number of hate bias incidents. This location type accounts for 24.1% of total incidents statewide. 77.5% of K-12 school hate bias incidents were reported in Montgomery County.
- In 2025, hate bias incidents cost \$490,186 in damages to 13 property categories.

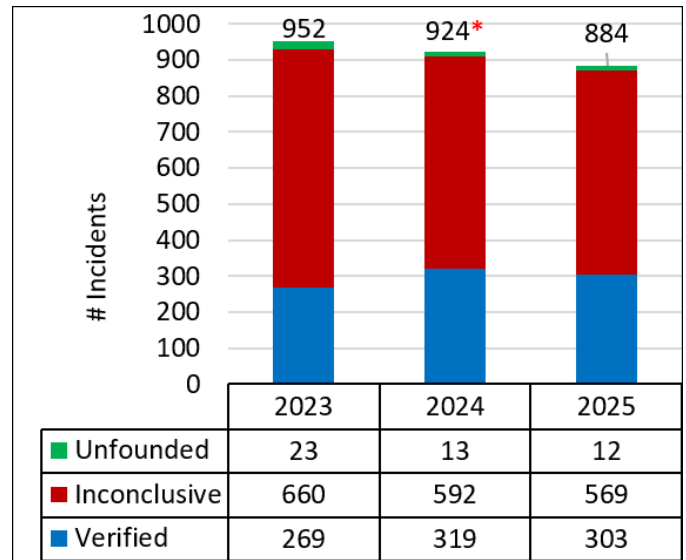

Figure 1: Comparison of verified, inconclusive, and unfounded reports for the last three years. *Three verified reports were received after the 2024 report submission deadline.

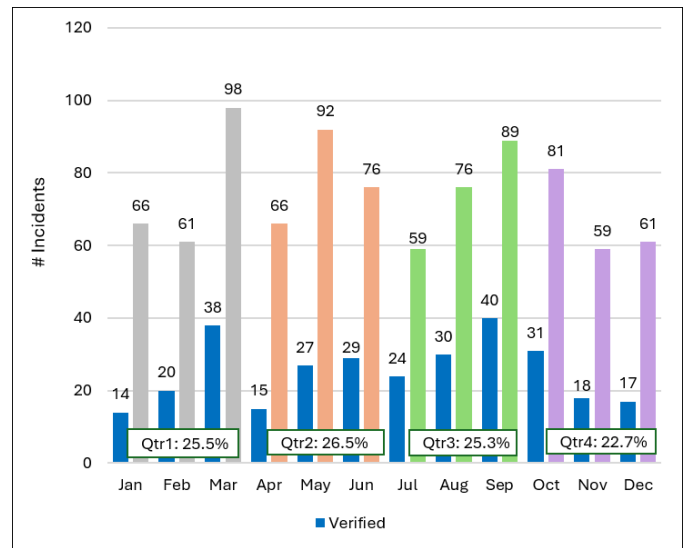

Figure 2: Verified and all incident reporting by month for 2025 are depicted above.

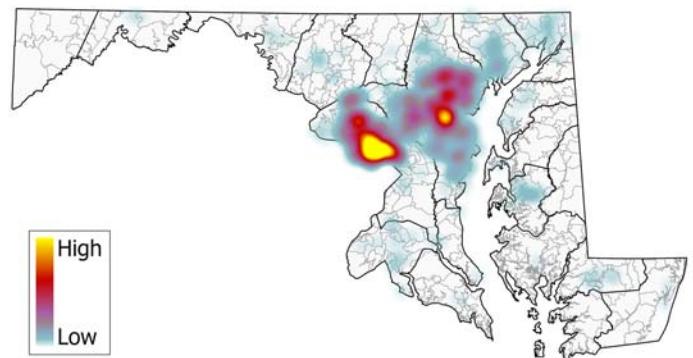

Figure 3: This heat map represents all hate bias incidents reported in 2025.

IV. Analysis by Category

Crime/Incident Classification

Crime/Incident Classification is denoted based on UCR criminal codes and non-criminal codes that correspond with data gathered from the Maryland State UCR Portal.

Crime/Incident Classification	Verified	Total Incident Classifications	Overall Total (%)
Verbal Intimidation	34	217	22.6%
Vandalism, Malicious Destruction of Property	76	206	21.5%
Other Hate Bias Incident	49	137	14.3%
Assault-Hands, Fist, Feet-Simple	49	114	11.9%
Written Intimidation	25	110	11.5%
All Other Offenses	49	92	9.6%
Larceny Theft	9	26	2.7%
Disorderly Conduct	12	17	1.8%
Assault-Firearm-Aggravated Injury	7	11	1.1%
Assault-Knife - Aggravated Injury	6	7	0.7%
Assault-Hands, Fist, Feet-Aggravated Injury	4	5	0.5%
Assault-Other Dangerous Weapon - Aggravated Injury	3	5	0.5%
Breaking or Entering Attempted Forcible Entry	1	2	0.2%
Breaking or Entering No Force	2	2	0.2%
Robbery - Other Dangerous Weapon	2	2	0.2%
Robbery - Strong-Arm	2	2	0.2%
Sex Offenses (Exclude Rape, Prostitution And Commercialized Vice)	1	2	0.2%
Fraud, Bad Checks, False Pretense	1	1	0.1%
Offenses Against Family, Desertion, Non Support, Neglect	1	1	0.1%
Robbery-Knife	1	1	0.1%
Total	334	960	100%

Figure 4: The Crime/Incident Classification for all reported incidents in 2025 is compared to verified incidents in the figure above. Some incidents reported more than one crime or incident classification. A total of 960 separate criminal and non-criminal codes were reported for 884 incidents. A total of 334 criminal and non-criminal codes were reported for 303 verified incidents.

Weapons

In 2025, 114 weapons were reported. Of these, 49 indicated Personal Weapons. 59 weapons were implied based on crime type (Assault-Firearm - Aggravated Injury, as an example), but no weapon was listed.

No weapons were listed or implied for 223 verified incidents and 723 total incidents.

Weapons Code	Subcategory	Weapons Reported in Verified Incidents	Weapons Reported in All Incidents
Firearm	BB and Pellet Gun	1	1
	Firearm	2	4
	Handgun	5	7
Other	Blunt Object	6	6
	Foot	1	1
	Hand	12	18
	Knife / Cutting Instrument	8	11
	Motor Vehicle	3	3
	Other Weapons	7	14
	Personal Weapons	34	49
Total Weapons Reported		79	114
Weapon Implied but Not Referenced		11	59

No Weapons Listed or N/A	223	723
--------------------------	-----	-----

Figure 5: Shown above are the listed weapons reported for 2025 hate bias incidents. Some incidents reported more than one weapon.

Bias Motivation

In 2025, R/E/A was the highest category reported for hate bias motivations at 59.6%.

In 2025, 80 incidents were reported with multiple bias motivations. This is an increase from 2024 when 46 incidents with multiple bias motivations were reported.

Anti-Black or African American accounted for 379 hate bias motivations (39.0%) in 2025 while Anti-Jewish motivations 210 accounted for 21.6%. Notably, for the first time in ten years more Anti-Hispanic or Latino hate bias motivations 66 (6.8%) were reported than Anti-Gay (Male) motivations 62 (6.4%).

Category	Verified 2023	Total 2023	Verified 2024	Total 2024	Verified 2025	Total 2025
R/E/A	150	528	183*	506*	212	579

Figure 8: Verified and total hate bias motivations by subcategory from 2023 through 2025 are shown above. *Three verified incidents for 2024 were received after the report submission deadline.

Victims

During 2025, there were 733 individual victims for 884 hate bias incidents. When gender and race were known, Black or African American male victims (191) were the most reported.

Offenders

When offender gender and race were known, White males (326) were the most reported.

Victim (Individual) Profile		Verified	All Reports
Race/Ethnicity/ Ancestry	Black	136	340
	White	87	241

Location of Incidents

There were 33 location types reported for 2025 which include places such as parking garages, restaurants, government buildings, department stores, etc. Of all incidents reported, 213 occurred at School-Elementary/Secondary (24.1%), 165 occurred at a Residence/Home (18.7%), and 143 occurred on a Highway/Road/Alley/Street/Sidewalk (16.2%).

Damages

In 2025, reporting shows \$490,186 in property damages from thirteen different property categories.

Arrests

Law enforcement reported 60 incidents closed by arrest in 2025.

** Percent of inconclusive over total incidents reported by county.

*** Percent of unfounded over total incidents reported by county.

County Trends

- Montgomery County accounted for 39.7% of all hate bias incidents reported in Maryland during 2025.
- 13.1% of the hate bias incidents reported statewide in 2025 occurred in four ZIP Codes. They are 20852 (32 incidents), 21061 (31 incidents), 20817 (26 incidents), and 20910 (25 incidents).
- 125 of the 138 incidents reported by Baltimore County in 2025 were verified. This represents the highest number of verified incidents in the state.
- No hate bias incidents were reported by Caroline, Garrett, or Somerset counties. Garrett and Somerset counties have reported zero incidents since 2020. This does not suggest that zero hate bias incidents reported means no incidents have occurred.

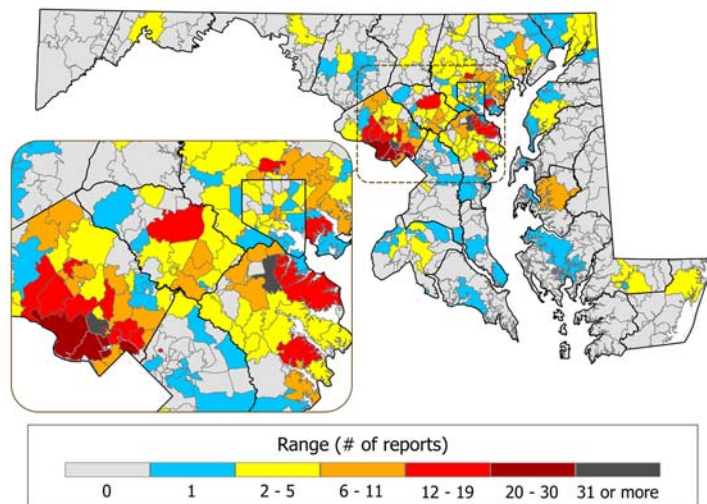

Figure 15: Hate bias reports in 2025 by ZIP Code.

V. Ten Year Summary

In the last 10 years, 2023 had the highest number of hate bias incidents reported with 952.

The largest increase in hate bias reporting took place between 2022 and 2023 (103.9%).

In the last 10 years, Anti-Black or African American was the most reported hate bias motivation each year. Anti-Jewish was the second most reported hate bias motivation each year.

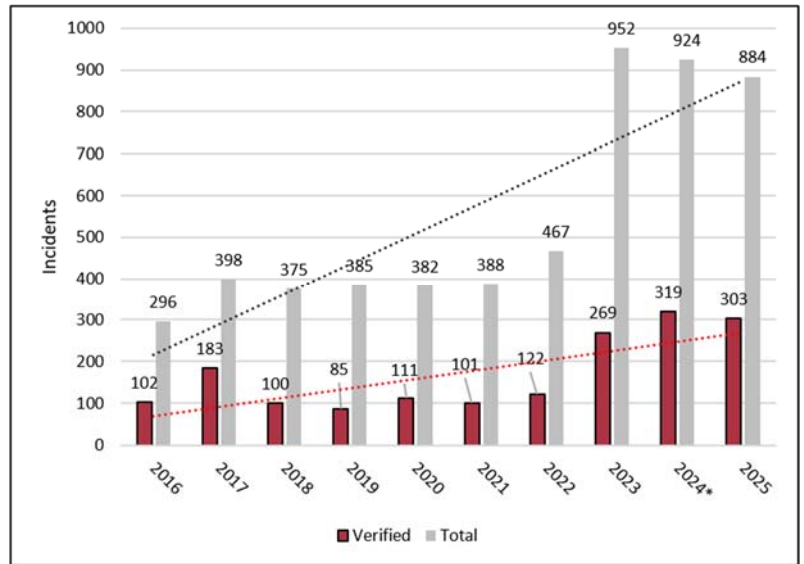

Figure 16: Comparison of verified incidents and all reports from 2016 - 2025.

*2024 verified and total numbers adjusted to accurately reflect updated data.

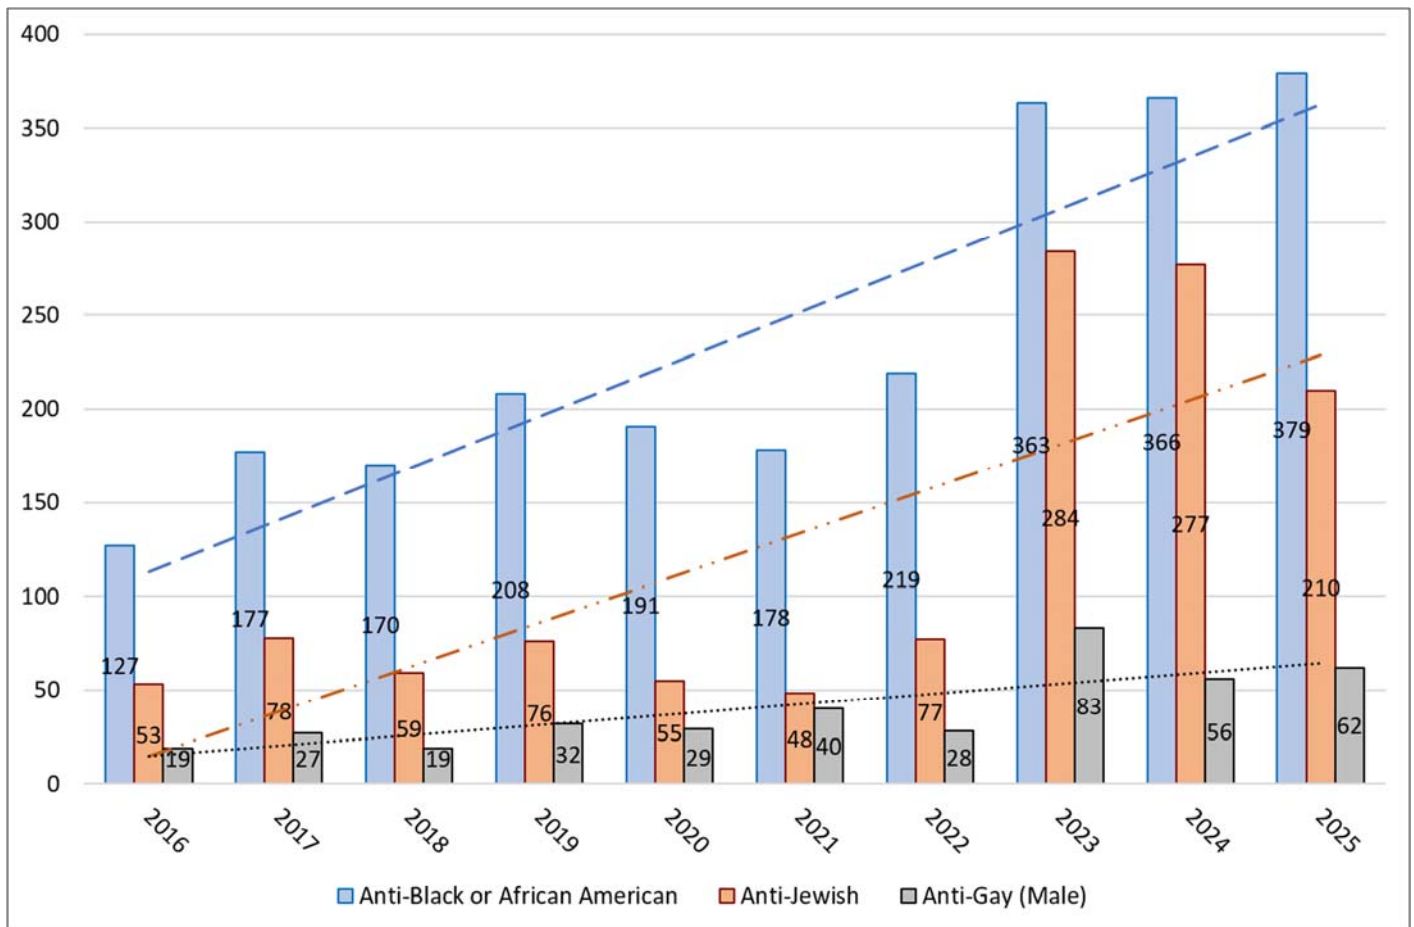

Figure 17: Shown above is a 10-year summary of the most reported hate bias motivations for R/E/A, Religion, and Sexual Orientation.

For R/E/A, Anti-Black or African American has been the most reported each of the last ten years. For Religion, Anti-Jewish has been the most reported. For Sexual Orientation, Anti-Gay (Male) has been the most reported.

VI. Considerations and Hate Crime Laws

In summary, law enforcement and other human relations agencies across the state should continue to monitor hate bias-related problems in their communities. Maryland citizens and law enforcement agencies must continually be diligent in reporting hate bias incidents. Law enforcement personnel are often the first to arrive on the scene of hate bias incidents. In order to meet the needs of the community, training on the recognition, investigation, and reporting of potential hate bias crimes and incidents remains important. It is equally important to encourage the cooperation of law enforcement and the community in addressing hate bias. The concept of community policing throughout Maryland should continue to incorporate hate bias-related issues.

If additional information is required concerning this report, please contact the Maryland Coordination and Analysis Center at 1-800-492-8477.

Hate Crime Laws

For additional information about Maryland hate crime laws and resources please visit the Maryland Office of the Attorney General's website at:

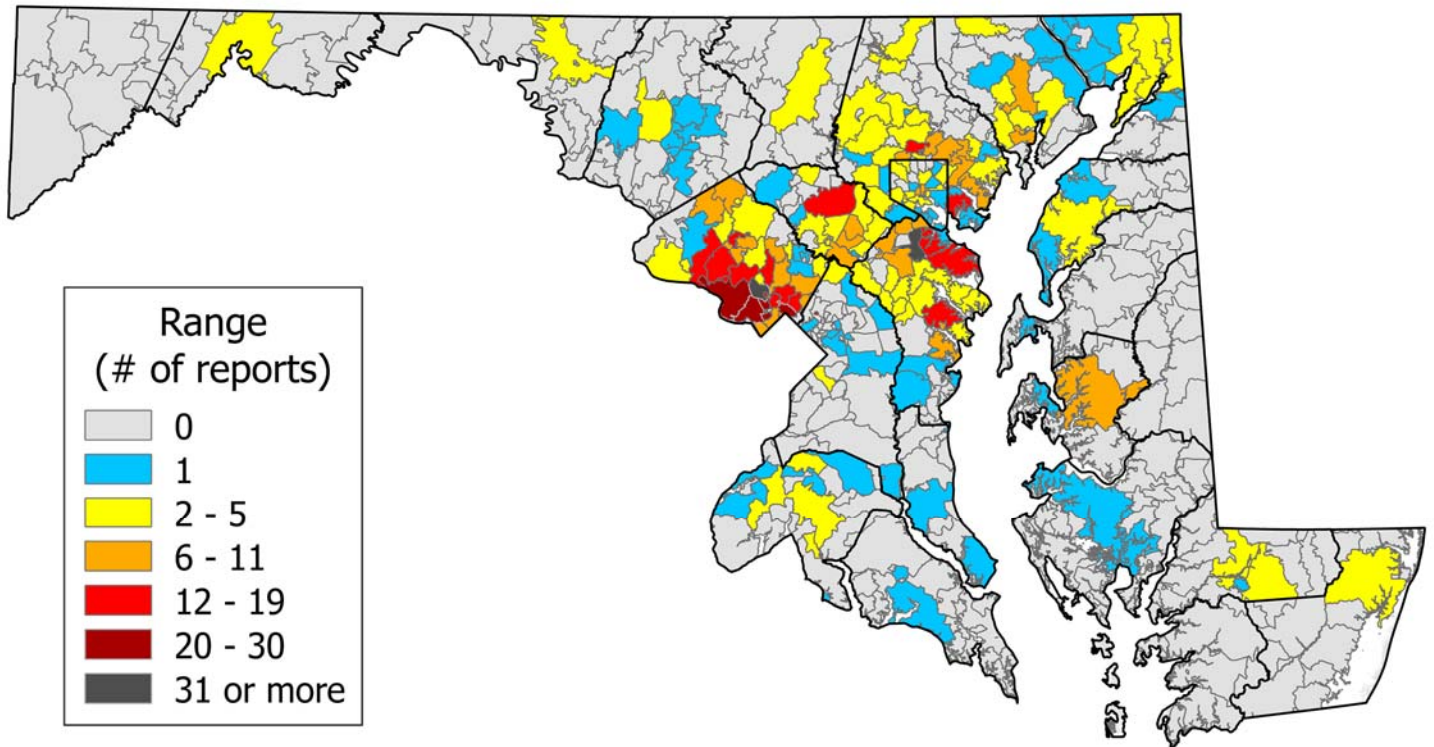

Figure 15 (Enlarged from page 11): Highlighted here are all hate bias reports in 2025 by ZIP Code.

This product was developed by the Maryland Department of State Police in partnership with the Maryland Coordination and Analysis Center.

The data behind this report comes from the Maryland Supplementary Hate Bias Incident Reporting, which is mandated for all Maryland law enforcement agencies to complete when a hate bias incident is encountered. The requirement collects information on date, time, incident type, bias motivation, clearance, victim and offender demographics, location, weapons used, injuries, value of property damage, and a written summary of the incident, amongst other things.

The information reported is based on individual agency policy and procedures, as well as the individual officer's level of training and expertise. The reports are collected by the Maryland Department of State Police Central Records Division as mandated by law and are then provided to the MCAC. If a hate bias incident occurs and is not reported to law enforcement, an incident report is not filled out and is not submitted. All incidents included in this analysis are counted as to what they are marked upon their most current receipt. This analysis is current as of 1 July 2026. Incident reports received after 1 July 2026 will be reflected in the 2026 report.

Assistance from the Maryland State Police and the Maryland Coordination and Analysis Center is available to any law enforcement agency that collects the information for investigative and reporting purposes.
